## Treacy Escapes From Asylum Second Time

Edward C. Treacy, former Canadian soldier, who escaped from the asylum at Lexington about two weeks ago, and was caught near Kiddleville in this county, and returned to the institution, has again made his getaway.

When he was returned after having made his getaway from the hospital again, Treacy told attendants "You're not going to hold me," despite the fact that he was placed in the most secure part of the institution, the violent ward. Another man escaped at the same time, but was recaptured shortly afterward by guards from the hospital.

Treacy, who is a young man, not yet thirty years old, was first committed to an asylum eight years ago, and since that time has made several escapes from Kentucky and California asylums. Before America entered the world war he escaped from a California state institution and made his way across the border to Canada, where he joined the Canadian army and went through some of the heaviest fighting in France. Returning to Kentucky about two years ago, he was committed to the Eastern State Hospital, and was permitted to work on the hospital farm.

## SECURES SELLING FRANCHISE FOR LALLY LIGHTING PLANT

The Montgomery Motor Co. has secured the agency for the well-known farm electric light and power plant, Lally Light. A careful investigation on the principal farm electric plants now on the market was made before accepting the Lally Light, and the Montgomery Motor Co. feels that they have secured the best plant on the market and one that has stood the test of time. Two plants are now in operation in this city, one at the Electric Shop and the other at the Montgomery Motor Co. A special demonstrator is here this week and will be glad to take the matter up with interested parties. Mr. Perry Flora is special sales agent, and anyone interested is invited to call at the Montgomery Motor Co., where the advantages of this plant will be gladly demonstrated.

## Local Negro Defrauded

Jim Bondurant, local negro, was "buncoed" out of \$300 Saturday afternoon by two out-of-town darkies. The two negroes met Bondurant near the depot and told him they were strangers in town desiring to buy property in a negro settlement. Bondurant told them he would be glad to show them some property, and started with them toward Smithville. On the way one of the strangers picked up a pocket-book which contained about \$1,100. The negroes all appeared much excited over the find and told Bondurant if they could get \$300 of the money he could have the rest. They feared the money was marked and as the correct change could not be made from the money found they suggested that Bondurant go to the bank and get \$300 and give them and he could have the "\$1,100." This Bondurant did, and the negroes immediately made their getaway. Bondurant was very much elated over his deal, but upon bringing it to the bank to deposit was informed it was all counterfeit. He at once notified Chief Tipton, who wired surrounding towns and in a short while the negroes were apprehended and arrested at Winchester. They were later brought to this city, where they gave the names of Roscoe English and Bob Williams. They had in their possession over \$330 which is being held by the authorities. It was a smooth game and Jim proved easy prey for the "out-of-towners."

## W. G. Gordon Dies of Tuberculosis

W. G. Gordon, aged about 55 years, proprietor of a local dry cleaning establishment, died at his apartment in the Tyler-Apperson building Sunday night at 10 o'clock of tuberculosis. Mr. Gordon had been in very poor health for the past several months, and the end was not unexpected. He was a native of Owen county and came to this city 12 or 14 years ago. He was at first engaged in the insurance business, but later opened the Pantorium, a dry cleaning plant, of which he was the owner at the time of his death. Deceased was known by his friends as "Dad," and was a big-hearted, whole-souled, genial man. He had been married and is survived by one son, William, of Flint, Mich., who was here during his illness. One sister, Mrs. W. S. Hunter, of Owenton, also survives. Both the son and sister are expected here today and the funeral arrangements will not be made until their arrival.

## BUILDING

Mrs. Fannie Goodpaster has begun the erection of a residence on the location of the residence recently destroyed by fire. This home is three and one-half miles from Sharpsburg. It will be a modern home.

The Woman's Missionary Society of the Methodist church will meet on Friday at 10 o'clock with Mrs. Henry Judy at her home on Sykesmore street.

## Miss Conroy Weds

Word has been received in this city announcing the marriage of Miss Beulah Conroy, of Frankfort, to Mr. William Preston Gaines, of Collierville, Ill. Miss Conroy is a daughter of John Conroy, of Frankfort, and is a niece of J. M. Conroy, of this city, and is quite popular here, where she has a host of friends who will be interested to learn of her marriage.

## A DISTINGUISHED PREACHER AND ORATOR RESIGNS

The resignation of the Rev. Dr. Robert B. Garrett, for twenty-one years the beloved pastor of Court Street Baptist church, is a distinct loss to this city, all the more so since he intends removing to his farm on the Rappahannock.

The Portsmouth pastorate of this faithful servant of his Master has been crowned with a success that must be a source of sincere gratification to him, as it is to the official members of his congregation and to the Baptist denomination at large.

The people of Portsmouth, regardless of sect or creed, have come to look upon Dr. Garrett as a citizen of whom the community may be proud.

His wife has been an inspiration, his counsel has been wise and his example everything that makes a city better for having such men among its leaders of thought and action.

He is greatly beloved and the affection and good wishes of this people will follow him wherever he goes.—Portsmouth Star, Portsmouth, Va.

Dr. Garrett is favorably known here, where he married Miss Anna Laura Howe, daughter of the late William Howe, a sister of Mrs. Lida Trimble, deceased, and an aunt of Charlie and Miss Emma Lee Howe.

It would please the numerous friends of Dr. Garrett and family should someone of the strong Baptist churches of the Bluegrass make such demands on Dr. Garrett that would direct him to accept the position of undershepherd.

## Ed. Hon Back in the Meat Business Here

The many friends of genial Ed. Hon will be glad to learn that he has returned to Mt. Sterling and bought the meat business of Gay Wilson on Main street. Mr. Wilson will continue at the same stand where he will still be engaged in the grocery and vegetable business, the two businesses being conducted independent of the other. Mr. Hon is one of the best meat cutters ever in this city and formerly conducted a large butcher shop here. He will handle only the very best in fresh home killed and cured meats and the policy of the business will be made known within the next few days. We are indeed glad to welcome Mr. Hon back to Mt. Sterling.

## A Good Woman Passes to Her Reward

On last Saturday at Stamping Ground, at the home of Arthur Frazer, a nephew, Mrs. Ella Nickerson, aged about 55 years, entered on rest. Mrs. Nickerson, widow of the late Daniel Nickerson, had given the early part of her widow life as a seamstress and later as a nurse. In this vocation she was numbered among the most thoughtful and attentive of the profession, and to this work the latter part of her life was given and at times it was a real sacrifice to health, but her service was one of real joy. Of those who survive her and who were here we note Arthur Frazer, wife and niece, Mrs. Tolata Frazer, and three daughters, all of Franklin; Miss Forest Thomas, a niece, of Maysville, and Scott Orme, a nephew, and his family, of this place. The funeral service was held at the Baptist church Monday afternoon, conducted by pastor Rev. R. C. Goldsmith, and the burial was in Muchpelah Cemetery. As a tribute to the life of this good woman the pastor with other commendable expressions, said, whenever able she was at the meetings of the church, and her presence was an inspiration to him in his work. Hers was a consecrated life and she entered the eternal, having brought into his kingdom many sheaves, to be credited for rewards.

Mr. Scott Orme and family are profoundly grateful for the many kindnesses shown by friends. It is to them and other kindred that the sympathy of the people who knew her and her deeds of love is extended.

### Advice to Thin Women

For some time past I have been besieged with questions from thin women who want me to tell them how to become plump. It seems to me that this is much more difficult than the matter of reducing after one has become too plump. The trouble is, probably, that the majority of thin people are of such an entirely different temperament than those who are inclined to adipose that their nervous energy consumes the life and vitality of the tissues more rapidly than new tissues can form. The materials of these are obtained from the blood. They are produced by the digestion of fresh supplies of food.

Nevertheless, I have heard that people complain that although they eat heartily they never acquire any flesh. The reason for this is that in many cases they eat more than the digestive apparatus can dispose of

properly and, secondly, because they do not select fat-forming foods. In addition, they should take proper and not exhausting exercise so as to stimulate the processes of secretion of the digestive ferments.

That is what a doctor told me when I consulted him upon that very subject. I am giving you the benefit of his exact words. Then I asked him what foods I should select. He advised plenty of butter, olive oil, rich cheese, cream, puddings, ice cream, candies, fat meats, fat fish, mackerel, thick soups such as pea, bean, barley and other purées of that nature, and plenty of nuts and raisins.

Of course this sounds like a very rich menu. Many delicate stomachs would rebel. Care should be taken, therefore, against over-loading the stomach. It is much better to eat often than to eat much at one time. A most important essential connection with this diet is the habit of deep breathing. If you have not already acquired that habit you should set about practicing deep breathing at once. You will be surprised how it will stimulate and exhilarate you. Try standing before an open door or window each morning and inhale deep breaths through the nostrils, then,

AFTER CLOUDS COMES SUNSHINE.  
AFTER DISPOSSESSMENT COMES JOY.  
AFTER SICKNESS COMES HEALTH.  
AFTER WEAKNESS COMES STRENGTH.

In the spring when you're "all in"—fagged out—blood thin, if you will turn to Nature's remedy, a tonic made from wild roots and barks, which has stood fifty years as the best spring tonic—you will find strength regained. No need to tell you it's Dr. Pierce's Golden Medical Discovery, put up in tablet or liquid form, and sold by every druggist in the land. After a hard winter—shut up indoors, your blood needs a temperance tonic, a tissue-builder and blood-maker such as this "Medical Discovery" of Dr. Pierce's.

Memphis, Tenn.—"I can highly recommend Dr. Pierce's Golden Medical Discovery to any one in need of a tonic. I used to be very frail and delicate when I was young and whenever I would become exceedingly tired and worn-out I would take a bottle of Dr. Pierce's Golden Medical Discovery. It never once failed to put new life in me and restore me to perfect health."—MRS. CATHERINE SCHAEDEL.

slowly, exhale through the mouth. Do this twenty times, daily, and notice your improvement. The neck and chest will be very apt to show the first indication of beneficial results.

Sleeping in a well ventilated room is another absolutely necessary factor in acquiring flesh. You must have plenty of sleep and you must not worry. The usual cause of a thin, pale face with hollow cheeks and dry skin is some kind of mental anxiety. This, in itself, interferes with digestion and prevents the proper assimilation of food. Other causes are insufficient rest, too much activity for the amount of relaxation allowed and, especially, the habit of concentrating too steadily or too eagerly upon one particular pursuit without change or proper mental recreation.

Have you not noticed that most book-keepers are thin; that most writers and other people whose work causes them to apply themselves

steadily and continuously to one line of occupation day after day, and year after year, seldom acquire flesh? If they do go off on vacations and gain a few pounds they soon lose the added weight after they get back into their regular routine.

"Early to bed and early to rise" is a maxim which thin people should always practice. They need the sleep, especially if they want to gain beauty, or even preserve what beauty they already have.

Cold sponge baths and brisk friction are always beneficial. The habit of deep breathing when walking or riding should be continually practiced. The back, loins and hips should be exercised as much as possible in order to keep the liver in good condition. A daily dose of olive oil, either by itself or in a salad, is recommended. The habit of inhaling the fresh air with the mouth shut, lifting the shoulders, as it were, holding the breath several moments, and then exhaling slowly will help to develop the chest, neck and shoulders and at the same time produce lightness of foot and an easy grace in walking.

Thin arms can be improved by vigorous rubbing with olive oil or cocoa-butter and by the use of light, muscular exercises, such as may be devised even when performing domestic duties. Anything which causes the hands to take a tight grip upon an object and to make tense the muscles in both the forearm and upper arm is helpful. A rough elbow can be greatly improved by wrapping it at night with bandages soaked in the oil or cocoa-butter.

Speaking of exercise, the thin woman who wants to become plump must remember that in whatever exercise she indulges she must stop before she becomes tired. Otherwise she will gain no benefit. Much is being said and written these days about manipulative surgery. The reason is that people are more and more realizing the value and importance of overcoming any stiffness of the spine or other joints. Great muscles are not essential for beauty or health but a free, flexible and perfect spine is absolutely necessary.

If you don't want to grow old before your time you must conserve your vitality. It must not be squandered by over-work, mental or physical, or in any other way. People who are always in a hurry wear themselves out in a hurry. It is said that people who breathe 30 times a minute do not reach old age. Slow breathing, at the rate of ten times a minute, is advised. I have not mentioned the importance of drinking plenty of water. It seemed hardly necessary to mention a fact so generally known and accepted.

In the matter of making the lips a bit fuller, a question which several readers of these articles have asked me, I may say that both biting the lips and the habit of constantly wetting them is due entirely to nervous-

## A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Headache, Malaria, Chills, Etc.

Ringgold, Ga.—Mrs. Chas. Gaston, of this place, writes: "I am a user of Theodor's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or trouble of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Theodor's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit. If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result. Theodor's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Theodor's, the original and genuine. B 79

## The Right Kind of Iron For The Blood

The most powerful and beneficial tonic in all medicine for the blood and nerves is iron. The greatest authorities agree on this. But it is a mistake to take any form of iron and expect to get satisfactory results. Most of the common forms of iron are what is known in science as "inert" when taken into the human system. By this it is meant that they exert no action whatever. Perhaps this is why you have been disappointed when you have taken certain pills or tablets or tonics said to contain iron.

The new way to restore iron to the blood—the surest and most dependable of all methods—is through the use of Acid Iron Mineral. This is a natural form of soluble iron—it is not prepared artificially by chemists like most medicinal iron, but is found in Nature itself, combined with other highly beneficial remedial agents. The story of the discovery of this new form of iron reads almost like a fairy tale and medical science has proved in thousands of cases its remarkable blood-making powers. Acid Iron Mineral may be procured in liquid form at any drug store. It contains no alcohol or injurious drugs and will not blacken the teeth. It has been especially noted that pale, puny children, weak, run-down persons and those enfeebled by age show improvement and exhibit increased strength almost immediately after starting treatment.

## You Will Be Proud of This Wagon

When you hitch your team to a new John Deere wagon you can be assured that the same proud feeling of ownership will still exist even after the wagon becomes old and scarred through years of hard use.

As you use it, the fact that it is made of the best materials, that it "stands up" under severe strains, and that it pulls lighter than any ordinary wagon you ever used, will manifest itself from day to day—and you'll realize that you made a "good buy" when you got this John Deere wagon from us.

If you haven't had a John Deere Wagon, ask any user if his John Deere wagon pulls lighter than the ordinary wagon. We are willing to leave the verdict with you after you have investigated to your satisfaction.

Here are the reasons why this is a light draft wagon—the wheels carry the correct dish; the axles have accurate gather so that the wheels run straight ahead—there is no binding or dragging; all the skeins have the proper pitch so that the heaviest load is carried on plumb spokes.

Drop in at our store the next time you are in town and look at this wagon. ASK US ABOUT THE GUARANTEE.

ness. The wetting tends to rob them of their color. A preparation composed of ten grains of Simple Cerate, fifteen drops of Essence of Cinna-mon and one-half gram of Red Pepper, which any druggist will compound for you, will improve the appearance of the lips and cause no harm.

For moistening and freshening the lips, a salve made of ten grams each of olive oil and white wax and one gram of alkanet chips is often used. It is especially desirable for persons traveling in cold and wind because of its soothing nature when the lips are chapped.

## JOIN THE AMERICAN LEGION

Those Montgomery county ex-service men who have not joined the Pangburn Post, local branch of the American Legion, should make application for membership to one of the following Post officers: Hodge K. Morris, T. K. Barnes & Sons' grocery; Ratliff H. Lane, Sentinel-Democrat office; Dr. D. H. Bush, Geiger Pharmacy Co., or L. H. Kilpatrick, 80 North Syeamore street, Mt. Sterling.

The American Legion will hold a campaign for new members the week of May 17-22 that will be "different."

The great American public, which has been the "drive" in so many intensive efforts of the last several years, has cultivated a fine taste in campaigns. It has come to be able to spot a good drive from one that is poorly handled. It can distinguish points of variety in a campaign. It has become a connoisseur in appeal.

The public, then, will be quick to recognize the essential difference of this American Legion effort.

In the first place, it is not a "drive," but a "push." Back in the dim days of the early war publicity experts borrowed the word "drive" from the slang of the day. Everyone who went out after something fell into the easy habit of calling his campaign a "drive." Then, when it came time for the men who really knew what a war "drive" was to go out after new members for their Legion, they found that the word "drive" was as punchless as a blank cartridge. They had to dig themselves up a new word. So they called their campaign a "push," which is a great deal like a "drive" except that it goes farther in implying relentless effort and resistless force.

A feature that the great general public should be quick to realize is that they, members of the public, will not be called on to contribute anything except good will. Positively no money contributions will be expected or received from them. They will be expected to exhibit their friendship,

## REPORT FROM THE FARM

Mr. Leslie Hendrix, one of our delisted readers of the Twice-a-week Advocate, gives the following report of the agricultural outlook for 1920 harvests:

Wheat is far below normal.  
Oats has an extra fine appearance.  
Rye is good.

Farm work is backward on account of spring rains.

Tobacco plants are small.  
Clover is extra fine and the famous bluegrass is at its best.

Mr. Hendrix is pleased over the purchase of a four-year-old milch cow at \$62.50.

## KENTUCKY BAPTISTS RAISE THEIR PLEDGE

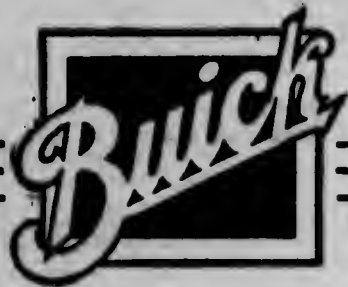

When the books were closed at midnight, April 30th, it was found that in the \$75,000,000 campaign of the Southern Baptists for Missions, \$90,000,000 had been pledged and that Kentucky had more than reached her apportionment for the first year in cash paid.

DEALERS

but not their checkbooks.

Only some three million men are eligible to take active benefit of the Legion campaign. The organization now has enrolled more than a million and a half former service men and women, leaving some three million who can belong but who do not.

The "push," then, is aimed directly at this minority. All of the combined efforts of the million and a half of their fellows will be devoted to bringing the absent into the fold, all of which means that every legionnaire will have to take on and convince two comrades.

Only about one man in twenty is eligible to join the Legion. It is perfectly safe to say that hundreds of thousands of loyal Americans would give a good deal if they were eligible, by reason of active army, navy or marine corps service, to come into the Legion. But they cannot, and it is only the three million who are privileged to take advantage of the "push."

But the Legion has no intention of passing up the general public, simply because it is not asking anything from the public. The Legion keenly desires to believe it is to every American's interest to be interested, which is not as ambiguous as it sounds.

While only one American in twenty may be privileged to come into the Legion, every American must support, in his heart, the Legion's platform, "For God and Country." Leaders in every field of American life have gladly and spontaneously indorsed the Legion's aspirations. It is widely recognized, although less than fifteen months old, as the greatest force for the established order in these United States.

That the general public feels that this is true is shown by the way prominent citizens have come forward to lend their aid. General Pershing has indorsed the campaign and urged eligible army men to join the Legion. Lieutenant General Robert Lee Bullard, commanding the department of the East, has included the

same recognition in general orders.

Various welfare and civic organizations have indorsed the "push," and have volunteered to lend speakers and equipment to help make it a success. So the general public shows that it refuses to stay out. If a citizen cannot come in himself he intends to do his part to see that the eligible men do come in.

The Legion intends making special efforts to capture those men—and there are hundreds of thousands of them—who have every facility for joining a post, but who are the victims of inertia. These men, and women—know they are eligible to become legionnaires; they approve the Legion's principles; they have always intended coming in, but they have simply put off doing so for the same reason of inertia that keeps men from taking out enough insurance or making their wills.

They belong in, and they know it. The Legion plans to get them by backing them into a figurative corner, flashing an application blank in their faces and painlessly extracting their names and dollars.

Efforts also will be made to get army, navy and marine corps men, who are eligible. Posts located near camps are expected to actively go out after these fellows. Another special sortie will be made against collegians, especially members of faculties.

The nation-wide "push" is expected to reach men in the most inaccessible places. Any fifteen ex-service men can form their own post by getting together and applying to national headquarters for application blanks. It is believed that no locality is so thinly settled that it cannot sear up fifteen former fighters, who can band together for social and Legion purposes.

SUBSCRIPTION - ONE DOLLAR AND FIFTY CENTS PER YEAR  
Cash must accompany order. No announcement inserted until paid for

We are authorized to announce the candidacy of Richard P. Ernst, of Covington, as a candidate for the Republican nomination for United States Senator. Mr. Ernst is one of the most powerful and widely known Republicans in the State, having long been recognized as a party leader. He is a graduate of Centre College, Danville, and a lawyer of recognized ability. He has been prominently connected with charitable movements, war campaigns, church and missionary work and drives to aid the schools and school teachers. He has long been recognized as a factor in the Republican party of Kentucky and we respectfully ask his brother Republicans to give his claims careful consideration.

Mr. Ernst's card follows:

Covington, Kentucky, May 10th, 1920.

For some time past it has been known to many of my Republican friends throughout the State that I would be a candidate for the Republican nomination for United States senator. I now desire to make public announcement of that fact. I keenly appreciate the responsibility and importance of this high position, and, in the event of my election, I will give to the duties of this office the best there is in me and will represent the people of Kentucky and of the United States to the best of my ability. I desire, also, to take advantage of this opportunity to express my sincere thanks to the many Republicans throughout the State who have, without solicitation on my part, so kindly and generously offered me their support.

RICHARD P. ERNST.

### "ALWAYS SELLS"

Is Right—Swinebroad Never Disappoints—

The Sale Saturday Was a Great Success

The sale of the property of Mr. Joshua B. Adams, which lies practically, though not quite, in the city limits of Danville, was conducted last Saturday afternoon by Swinebroad, who "always sells" and the sale, as is his usual custom, was a great big success. Messrs. Dever and Moss, the local representatives, did a big part in making the sale the success that it proved to be. Boliver

Bond, auctioneer supreme, was at his best on the block Saturday. The total sale amounted to \$62,046.70 and the average per acre for the 141 acres was \$439.88. The land was purchased by the following:

83.34 acres to George White of Versailles for \$16,000.

16.44 acres at \$407.50; 20.51 acres at \$400; 35.53 acres at \$350 went to Mr. G. A. McRoberts. This adjoins Mr. McRoberts present farm and will give him an outlet to the Lancaster pike, making two outlets, the East Main street one and the one above.

7.80 acres at \$470; 8.40 acres at \$590 went to J. D. Whitehouse.

19.03 acres at \$530 went to Telford Alexander.—Danville Advocate.

## LALLEY LIGHT and POWER

### Why We Are Selling Lallely-Light

The day of electricity on the farm is just dawning.

Lallely-Light has convinced us that it is, by far, the most reliable, efficient and economical farm electric light and power plant on the market.

In brief, these are the reasons why we have taken on the local retail sale of Lallely-Light.

This plant has ten years of successful, every-day farm use behind it.

Its dependability, its quality, its low cost of operation, its long life and its almost total freedom from repairs and replacements are established facts.

We take no chances in recommending Lallely-Light; and the farmers who buy it take no chances.

Lallely-Light means the end of a great deal of inconvenience and discomfort; the saving of much farm labor; and a degree of fire protection impossible with open-flame lights.

It means running water in house and barns, if the owner cares to install a water system.

It means power to run cream separators, churns, washing machines and half a dozen more labor-saving devices.

We believe so thoroughly in Lallely-Light that we have contracted for a stock of plants, from which installations can be made without shipping and other delays.

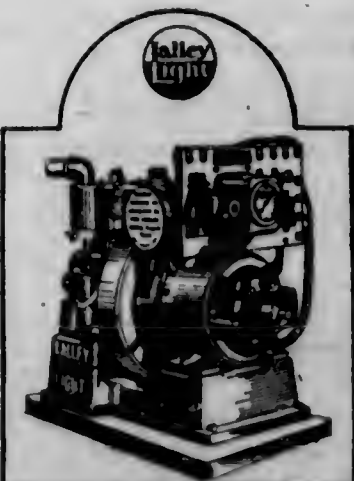

Lallely-Light, once the buyer and his family have familiarized themselves with its simple mechanism and its operation, needs practically no service from the dealer.

Nevertheless, we are prepared to render whatever service may be necessary, now or in the future.

Our salesrooms are equipped to give you a demonstration of Lallely-Light in operation.

Or, if you prefer a demonstration at your home, telephone and we shall be glad to give it, without cost or obligation to you.

### CORRESPONDENCE

#### Camargo and Vicinity

The closing entertainment of the Consolidated School was held last Friday night to a splendidly filled house who enjoyed the splendid work rendered by Prop. O. W. Cain's pupils. Three short talks were delightfully rendered to an appreciative audience. Friday of this week closes the term of both the grades and high school. By a most liberal donation from the patrons of this school all the grades will receive a nine-months' school in connection with the first and second year high school the coming year.

Mrs. Etta Parkhurst, of Wilmore, Ky., is at the bedside of her mother, Mrs. R. C. Redmond.

Mrs. Myrtle Combs and daughter, Elizabeth, who have resided in Camargo the last nine months, have removed to Chicago.

Corn planting here has not so far attained very much speed, owing to the very retarding conditions. The coming week, under good conditions, will find the larger part planted, however.

Clarence Ensor, son of Ed. Ensor, had a very narrow escape from instant death last week while operating a tractor on the Bogie farm. The tractor was brought to a stop just in time to prevent his being crushed beneath it. His clothes were caught, which threw him in its path, breaking his arm very badly in two places.

Bruce Willoughby has added a veranda to his home recently built.

H. F. Osborn, of Mariba, has moved to his new home recently purchased from H. G. Stafford and wife.

#### Stoops

Farmers continue badly behind with their work.

Sam Cockrell, who has been running the blacksmith shop for some time, has moved to Cane Ridge, Bourbon county.

The wheat crop here is a failure, oats are looking fairly well, and the meadow prospects are good.

Emmett Coons, of Fayette county, was a Montgomery county visitor on Saturday and Sunday.

Pete Jones has moved from this place to the Hamilton farm at Flat Creek.

Mrs. Belle Warner, of Middletown, Ohio, is visiting her son, Thomas Warner.

Mrs. Lida Mark, of Sharpsburg, who has been ill for some time, is able to be out again.

## Don't Feed Your Profits to "Sleepers"

You are getting better prices than ever before for your dairy products—and are making less. You blame this on the "high cost of feed." DON'T.

Your loss comes from spending the money your producing cows earn to keep free boarders—sleepers. Every cow in your herd must earn dividends these days to bring you out ahead. Cheap feed would only make matters worse. Production and quality would be lowered. You'd still have those "sleepers" to feed. Try this solution for your problem:

Give your low producers one more trial with CE-RE-A-LIA SWEETS, the quality feed with guaranteed results. There's every chance that you will build them up to money-making standard. If your record does not show marked increase in milk flow and butter fat content after four weeks' trial, sell those cows for what they'll bring. They're hopeless.

Make this trial, for one cow, without risk to you. If you're not satisfied, feed costs you nothing.

We're sure CE-RE-A-LIA SWEETS will put every cow in your herd on a paying basis. Costs little more than low-protein feed, and results make up the difference twice over. Fed with roughage, it is a perfectly balanced ration—20% protein, 45% fat, 50% carbohydrates. All ingredients are accredited material. Pure, palatable, cane molasses adds to its digestibility.

#### ARTIFICIAL WOOL IS INVENTED IN ENGLAND

An important invention by Henry and Camille Dreyfus, which is expected to revolutionize the woolen industry, has just been made public in London.

The well-known chemists are said to have perfected a form of artificial wool, better than the genuine article and giving the same insulating effects. Its basis is cotton waste treated in an entirely new way with a cellulose acetate.

The new product, which has passed searching tests, will be manufactured in large special plants in America and England, according to plans.

#### FACTS and FANCIES (By Mack)

Visitor—Why do you let hogs traverse on your sidewalks in Mt. Sterling?

Home Boy—They don't, why?

Visitor—Then, how do some of the girls get so bow legged?

Judge—The officer said you used had language.

Prisoner—When he stopped me I was in a tantrum.

Judge—Never mind the make of the car.

It is not for the like of us to be offering advice to Democratic factionaries, but it would seem to us that a lot of time might be saved and much friction avoided if the Beckham half of the untitled was to devote its energies to the finding of Stanley's lost hunting dog—Lonisville Herald. Or let him find General Leonard Wood's ship of stone with sails of lead which he spoke of in one of his speeches.

If the men want to keep the women away from the polls, all they have to do is to pass a law requiring them to tell their correct age when they vote.

He—Birds certainly hurt our town of Mt. Sterling.

She—How's that?

He—Well, every time one gets on the electric light wires our town is in darkness until it decides to fly off.

She—I see Mr. Blinks' dining-room lighted tonight, that is unusual. They must have company.

He—No, his wife is eating at home tonight.

Bystander—How did he get into that condition?

Another Bystander—He called one of President Wilson's admirers, senator.

That must be a very misinformed bunch of women that's picketing the Treasury at Washington. Don't they know we have loaned all of our money to the Allies?

After observing women's skirts for years we are not surprised now to learn that overalls are going up.

### WOMAN TOURS THE SOUTH FOR LEAGUE OF NATIONS

Mrs. Ida McGlone Gibson, who has  
been making an extended tour  
through Georgia in the interest of  
the League of Nations, met with an  
enthusiastic reception. To the Atlanta  
Constitution Mrs. Gibson said:

"With the signal that the League  
of Nations was signed, the sun burst  
through the clouds for the first time  
that misty day. The fountain played  
for the first time in the Versailles  
gardens since the war began, and  
music resounded everywhere. And I  
knew that the glad tidings were that  
moment reaching the world and that  
the greatest peace message since the  
Sermon on the Mount.

"And to think that though we were  
the first to sign it, we are the last to  
ratify it. Every nation has signed  
the message except this one. But do  
we blame the American people? No;  
I do not accept the fact that a few  
politicians invested with authority  
which they use for selfish aims rep-  
resent the people of my country,  
America, which gave Pershing's army  
to the world.

"If I thought those obstructing  
politicians represented the people of  
this country, I should say that every  
boy who died in France died in vain,  
but they did not die in vain. The  
people of this country are not rep-  
resented by the obstructionists who  
hold back the hand of the American  
people in ratifying the greatest of  
messages, which the League of Na-  
tions represents."

### C. & O. Engineer Has Terrible Experience

C. T. Harry, of Ironton, Ohio, Able  
to Return to Work

C. T. Harry, of 409 North Fourth  
street, Ironton, Ohio, is back on the  
job again, feels fine and hasn't  
missed a day's work since he began  
taking the Reese Formula R-11. In a  
statement Mr. Harry says: "I have  
suffered for years with stomach  
trouble, my liver and kidneys were  
also effected and until I began tak-  
ing the Reese Formula R-11 I was  
unable to work more than half the  
time and despaired of ever being well  
again. Eating was torture to me. I  
was bilious, bloated, couldn't sleep,  
would get up in the morning tired,  
nervous, irritable and weak. I tried a  
number of doctors and every remedy  
I know of. At last the Reese For-  
mula was recommended to me. I  
bought a bottle and after the second  
day I began feeling better and was  
able to return to work.

I have taken two and a half bot-  
tles and don't believe I ever felt bet-  
ter in my life. I sleep well now, and  
get up in the morning refreshed and  
vigorous. The trouble with my  
stomach, liver and kidneys have all  
disappeared and I feel stronger in  
every way.

My work requires me to be up at all  
hours of the day and night and natu-  
rally my meals are irregular, but that  
doesn't bother me now. I consider  
the Reese Formula R-11 the best  
stomach, liver and kidney remedy as  
well as a tonic and system builder to  
be had at any price, such at least has  
been my experience."

The Reese Formula R-11 is sold by  
Wm. S. Lloyd Drug Store, and every  
druggist everywhere.

## Ten miles used to be a long way

WHAT a difference in  
these motor-car days,  
when every point in the  
county is hardly more than  
"just around the corner."

People's ideas are chang-  
ing, too.

They're beginning to fig-  
ure out *how much it is cost-*  
*ing them* to keep a car. And  
the man who is doing the  
greatest amount of figuring is  
the man with the *moderate-*  
*price* car.

II

There still seems to be a  
notion in some quarters that  
*any* tire is good enough for  
a small car.

*That's not what the man  
who owns it thinks.*

In recommending and sell-  
ing U. S. Tires we are trying  
to see *his side* of the propo-

sition—finding out what *he*  
wants in a tire and *giving*  
*him that.*

III

Large or small, U. S. Tires  
are built to *only one stand-*  
*ard* of quality—the standard  
that produced the *first*  
*straight side* automobile tire,  
the *first* *pneumatic* truck  
tire.

Every tire that bears the  
name "U. S." is built the  
*best way* its makers know  
how. It isn't the car, but  
the *man who owns the car*,  
that counts with the oldest  
and largest rubber concern  
in the world.

IV

As representatives of U. S.  
Tires in this town, we offer  
you the benefit of our experi-  
ence and advice in settling  
your tire problem.

Select your tires ac-  
cording to the roads  
they have to travel:

In sandy or hilly coun-  
try, wherever the going  
is apt to be heavy—The  
U. S. Nobby.

For ordinary country  
roads—The U. S. Chain

For front wheels—The  
U. S. Plain.

For best results—

### Mrs. Bowen Tells How Rats Almost Burned Her House Down.

### ADVICE TO EMPLOYES

### Association of Employers at Louis- ville, Ky., Points Out Necessity of Thrift and Saving

One of the associations that really  
accomplishes things is the Employers'  
Association at Louisville, Ky. This  
organization embraces in its mem-  
bership all of the leading industrial  
plants and commercial enterprises of  
the Kentucky metropolis, and it also  
wields a tremendous influence.

The association believes in look-  
ing after the welfare of their employ-  
ees, and each month a bulletin is is-  
sued that contains information of  
value.

The most recent bulletin has this  
to say, under the caption of "Thrift  
and Saving."

"The alarming growth of habits of  
extravagance on the part of our peo-  
ple points to the great need for the  
universal practice of thrift and econ-  
omy in order that the fruits of in-  
dustry may not be lost.

"This association, therefore, places  
itself on record as urging all per-

sons in this community, whether they  
represent management or production,  
to immediately and intensively apply  
themselves to habits of saving and  
economy.

"We heartily endorse all legiti-  
mate movements tending to educate  
our people to the desirability of home  
ownership, the opening of savings  
accounts and investments in policies  
of insurance.

"We especially commend at this  
time the government's partial pay-

ment plan for the purchase of Treas-  
ury Savings Certificates, and urge  
upon our fellow members and other  
employers early conference with  
their employes so that the benefits  
of this method of saving may be ap-  
preciated and quickly put into ef-  
fect."

### Gets Rid of Her Troubles at 75

"Tanlac is Certainly a Fine Medicine For Elderly People," She Says

Among the many Kentucky people who have recently testified to the powers of Tanlac is Mrs. Nannie Chappell, residing at 3724 Old Third street, Louisville, who in relating her experience, said:

"I am now seventy-five years of age, but I doubt if there are many women that old who feel any better than I do since taking Tanlac. Why, during all the years of my life I have never seen or heard of a medicine to equal it, for a few bottles have relieved me of a case of rheumatism, nervousness and indigestion that had troubled me for twenty-three years. Sometimes my lower limbs hurt me so bad I couldn't walk, and at times my arms pained me so I couldn't raise my hands to comb my hair. I had several attacks every year and while they were on me I could neither get up or down without help. Many a time I got so nervous I would shake like a leaf and just dreaded to see night come, for it was impossible for me to sleep. My appetite left me, too, and everything I ate disagreed with me.

"Finally I got so bad off with this rheumatism that I couldn't stay on my feet any longer. While I was down in bed my son, who is a passenger engineer on the Louisville and Nashville railroad, came to me and said: 'Mother you remember how I suffered so long with stomach trouble and could hardly eat at all, and last weight and thought I would have to quit work. Well, you see me now weighing two hundred and fifteen pounds and in such a good condition that I can eat pork or anything else I want and my health just perfect. Tanlac did this for me, and I'm going to get you a bottle. So, he did, and almost as soon as I began taking it I felt better. In a few days I had a good appetite and was able to get out of bed. I have taken three bottles of Tanlac now and am feeling like a different person. Every sign of the rheumatism is gone and I am not only able to sleep soundly every night but I usually take a nap during the day. Tanlac is certainly a fine medicine for old people and I will gladly tell anyone personally just what it has done for me."

Tanlac is sold in Mt. Sterling by Land and Priest.
